Summary Report  
Revised Assessment Methodology

### **Objective**

Santoro Economic Consulting (SEC) was contracted by the board members of the Clearwater Cay Community Development District (CDD) to evaluate and reconstruct the Second Supplemental 2008 Methodology.

### **Methodology**

As instructed, the new methodology was to be created to calculate the CDD's new assessment for each property (Grand Venezia and Office Space). The analysis took into account the original total debt for those properties less all of the total benefits provided to the district at that time and/or thereafter. The following is a summary of the procedure used to create the new methodology:

1. The sale of the Commonwealth parcel is the benefit.
2. The Grand Venezia and the Offices were allocated base on a percentage of the total land: 31.4% and 62.3%, respectively.
3. The original debt of the Grand Venezia and Offices were reduced according to their respective percent allocation.
4. The new debts were then divided by the number of residential units and offices, plus spread for a period of 12 years.

The methodology above is based on the evidence, data and documents provided by the district board members as requested on the final proposal from this consultant. I hereby attest that all the work performed on this document is an original and accurate methodology using my experience and training in the field of economics.
